

Vadodara chapter of SPG organized a technical talk on 27th August, 2014

Vadodara chapter of **Society of Petroleum Geophysicists (SPG)** organized a technical talk on 27th August, 2014 at ONGC Officers' club, ONGC. The speaker was **renowned expert on seismology** and **director general of Institute of Seismological Research, Gandhinagar**.

The topic of the talk was "Some Novel Application of Geophysics and Seismology". It was such a simple topic but covered so many aspects of seismology and hence was liked by one and all. Some wondered seismology and in particular micro seismology has such a wide range of applications. The institute he is heading is engaged in research in several branches of seismology like Observational Seismology, Basic research for understanding earthquake process, Earthquake hazard (Seismotectonics, Microzonation, Geodetic, Remote sensing, Geological, Geotechnical), Geophysical surveys (for oil, water and minerals), Archeology, Earthquake Prediction research and Tsunami Warning.

Patron, SPG, Vadodara Chapter welcoming Dr B K Rastogi and the audience

President of SPG & APG Mr U S D Pandey and Mr Tarun Shaha giving away the memento to Dr B K Rastogi and K P Singh, Secy, SPG, Vadodara Chapter completing the program
