

Experience as a delegate at the 2022 International Petroleum Technology Education Week held in Riyadh, Kingdom of Saudi Arabia

Ms. Shreya Mukherjee [Final Year Applied Geology M.Sc. Student and student member of Society of Petroleum Geophysicists (SPG) and American Association of Petroleum Geologists (AAPG)] had the opportunity to represent her university and country at the Education Week during IPTC 2022 Conference held from 21st to 23rd February, 2022 at Riyadh, Saudi Arabia.

Visa application fees, travel and accommodation costs and other overheads were completely borne by the IPTC. However, due to the ongoing pandemic and safety and health regulations of Kingdom of Saudi Arabia, a 5-day quarantine in Riyadh was mandatory, the cost of which was completely sponsored by the Society of Petroleum Geophysicists (SPG).

The Indian delegation at IPTC 2022

The IPTC 2022, provided an excellent opportunity to interact with industrialists from various world-class companies and understand the direction of the energy sector in the next few years. As the only geology student selected from India, Ms. Shreya Mukherjee was able to grasp new concepts, emerging technologies and learn a lot from fellow colleagues. The event helped in realizing, how in this technological era, getting a hands-on experience with computer software, programming languages and data science is a must.
