

## SPG India Co-sponsored Interactive talks on “Mysteries of Universe and “Mystery of Ocean”

SPG-India co-sponsored interactive talks for students of Dehradun at Nehru Auditorium ONGC Academy, KMDIPE Campus Dehradun, organised by Asom Association. Mr C. V. Rao, Vice President SPG-India and Mr Bipul Gohain, President Asom Association, addressed the gathering and emphasized the importance of Knowledge sharing through interesting and resourceful topics.

Payawini Saikiya, a research scholar at Radboud University, Netherlands delivered the talk on 'Mysteries of Universe' and Mystery of Ocean. Her research on Extragalactic Astrophysics (Black Holes and Active Galactic Nuclei) mesmerized the audience.

K. M. Shukla, reputed geophysicist for Gas hydrate and Secretary SPG India, delivered the second talk. He enlightened the audience with future source while explaining the huge potential as a future energy source he also tried to explain the Bermuda Triangle Mystery on the possible presence of Gas hydrate in this area.

About 150 student, parents and teachers attended these interactive and informative talks. The event was concluded with the felicitation for their excellent questions.
