

## President's Page

Dear Members,

I am indeed happy to address the fellow society members on the eve of 9<sup>th</sup> International Conference & Exposition on Petroleum Geophysics, "Hyderabad 2012". It is my privilege to express my hearty gratitude for overwhelming response to the first call of paper for "Hyderabad 2012". Response was at record level in terms of number and quality from India and abroad. I am quite sure that we are getting together and making it truly an international event in E&P industry to realise the theme "Reservoir Grade 3D API- Exploration to Exploitation".

I am proud to know that the "*GEOHORIZONS*" is generating increasing interests from geoscientists to get published their technical papers. The special issue of "*GEOHORIZONS*" is targeting the theme of shale gas exploration and exploitation. The issue is going to provide better understanding for solution in shale gas play.

I am pleased to share with you that SPG is growing its membership base across the discipline and its right time to think beyond India particularly South East Asia through mutual understanding and collaboration with sister concern.

We all are aware that use of petroleum hydrocarbon is only increasing and supply is not coping with it. Therefore, we have to contemplate new hydrocarbon plays and areas with imbibing knowledge, experience and wisdom through interaction with fellow geoscientists. I hope increasing activities of SPG-India will fulfil this need. Please develop learning habits and use the programs of SPG-India to improve your personal and professional life. We are making every effort to keep abreast of latest happening in petroleum geophysics through, workshops, lectures, conferences, journals and regular conferences on featured technologies and developments.

It is heartening to see your active participation in all the programs of SPG-India and supports from SEG, USA and EAGE, Netherland to promote geosciences in India.

My earnest request to you all to share your thoughts on improving the performance of SPG-India by your timely feedback through various avenues.

I am excited to meet you in 'Hyderabad 2012' during Feb 16-18, 2012.

With personal Regards
