

SPG-India Organises Technical talk on “Advanced 3D seismic data Interpretation” at Dehradun

A technical talk on “Advanced 3D seismic data Interpretation” by Sri. Satinder Chopra, Arcis Seismic Solutions, Calgary, Alberta, Canada was arranged by Society Petroleum Geophysicists, Dehradun at KDMIPE mini Auditorium on 5th February 2015.

The talk was attended by Sri C.L. Baloni, GGM-HGS and many other dignitaries from ONGC, Dehradun. In all around 140 participants attended the talk which was well appreciated almost by all participants as the most useful one. The talk covered all the aspects related to advanced

seismic data interpretation from general exploration stage to specific problem.

Sri. C.V. Rao, Vice President, on behalf of President SPG, India, thanked Sri. Chopra for accepting to deliver a talk on topic suggested within a very short notice. Sri. U. C. Saxena, GM(GP)-GEOPIC presented a souvenir to Sri Chopra on behalf of SPG India, Dehradun.

The program was aptly compered by Mr. Vivek Kumar Singh, Executive Member and vote of thanks was proposed by Dr. N.P. Singh, Executive Member, SPG India.
