

Lecture by organized by SPG, Kolkata Chapter on 29.10.2014

The Society of Petroleum Geophysicists (SPG) Kolkata Chapter has organized a lecture by Sh. N.K. Khatri, DGM(GP), IRS, ONGC, Ahmadabad on 29th October 2014 in the Officers' Club at Golf Green Kolkata. The topic of the lecture was Rock Physics and AVO Studies in Mahanadi Basin which was very well received by more than hundred persons. The audience comprised of the working Geoscientists from ONGC, retired ONGC Geoscientists, and Academicians from Jadavpur University. The subject was very apt and thought provoking as ONGC has very limited success as far as hydrocarbon exploration is concerned in

Mahanadi Basin. A lot of interaction and deliberations were held during and after the lecture amongst the audience, as the exploration in Mahanadi Basin is at very crucial juncture. The young Geoscientists were also very enthusiastic about the result of the AVO studies in Mahanadi basin shown by the lecturer. The program was inaugurated by the Vice President, SPG Kolkata Chapter Sh. Subrata Chakraborty, DGM(GP) and it was organised by the Secretary, SPG Kolkata Chapter, Dr. Anand Prakash, CG(S) very well. The lecture was followed by dinner hosted by the Basin Manager and Patron of SPG Kolkata Chapter, Sh. A. V. Sathe.
